

Yeelight LED Sensor Drawer Light

Yeelight LED Sensor Drawer Light

Ref: 6924922212782

The Yeelight brand is part of the Xiaomi ecosystem.

Yeelight LED Sensor Drawer Light

Are you looking for a practical drawer accessory that will add an elegant touch to your rooms? Yeelight Drawer Light will be the perfect choice! The light has a sensor, so it will turn on when you open the cabinet, drawer or cupboard. You also do not have to worry about the battery draining quickly. The accessory automatically turns off after 3 seconds, and thanks to the durable battery remains in standby mode for up to 2~4 months! Drawer Light is also available for sale in a set of 4 pieces.

Mount where you want

The lamp will work well for drawers, cabinets, cupboards, etc. There are many possibilities! The built-in IR sensor makes the light turn on automatically when you open the cabinet and goes out 3 seconds after closing it. Yeelight lighting will not only make it easier to locate the selected item, but it will also be an interesting decoration.

Fast and easy installation

Installation of the light requires no additional tools and is very simple. You just need to glue the frame in the desired place and then place the lamp on it. Please note that the probe of the infrared sensor should face upwards or outwards.

Satisfactory working time

Drawer Light will surprise you with a long working time. The built-in battery capacity of this device is 300mAh, so the light can stay in standby mode for 2~4 months (if used 3 times a day). You can fully charge the battery in an hour with a USB-C cable.

Thoughtful design

With the button located in the upper left corner, you can customize the operation of the accessory. To turn the Drawer Light on/off, just press the button. The lamp also has an automatic mode, during which the backlight takes on a blue color.

Simple design

The lamp's slim design with a thickness of only 11 mm allows you to place the lamp even in a very small cabinet or drawer. However, the white color of the lamp gives it a universal character and makes it fit almost anywhere!
