Ref: 0608887787078

The Yeelight brand is part of the Xiaomi ecosystem.

Yeelight Ceiling Light C2001R900

The Yeelight lamp will be the perfect addition to a modern interior. The slim, rectangular design is distinguished by its durability and minimalism. While conveniently controlling the color temperature and adjusting the brightness with an assistant or app enhances the user experience. Create the right atmosphere with Yeelight C2001R900 and enjoy the warm, eye-pleasing color.

Intelligent control

Conveniently control your home lighting with your voice or phone! With cross-platform compatibility, you can control the lamp with your voice assistant or smartphone. The product is compatible with Google Assistant, Amazon Alexa, Apple Homekit, and Samsung SmartThings. What's more, SLISAON technology, by activating the "Flex Switch" option in the app, allows you to remotely control the lighting even if the lamp has been turned off via a bell switch.

Simple and modern design

Minimalism and style - these two words best describe the design of the Yeelight product. Simple and durable construction will allow you to enjoy a pleasant light for a long time. The metal frame also gives the product an elegant look. The rectangular, slender shape and white color of the lamp make it perfectly fit into a modern interior.

Take control of your lighting

You can control the Yeelight lamp in two ways: with the app or with controllers: Bluetooth remote control (included) and Smart Dimmer switch (available as an additional accessory). The app allows you to control the lighting from anywhere, whenever you want. Personalize the color temperature, turn on/off or change the lamp modes according to your needs. In addition, with the remote and Smart Dimmer, you can adjust the lighting without even moving from your couch. Plus, the Bluetooth remote is compact and won't take up much space.

A pleasing to the eye, vivid colors

Compared with other similar products, the light cast by Yeelight lamp is pleasant to the eyes. In addition, the CRI is 95Ra. This means that the lamp produces natural and real colors. Say goodbye to gray and boring room colors, the Yeelight lamp will light up your room with vibrant colors.

Adjust the temperature to your needs

The lamp allows you to conveniently control the color temperature (from 2700K to 6500K). This allows you to set the day mode for when the light from outside is insufficient, or the night mode to help you fall asleep. During night mode, the light brightness is reduced to a minimum. Choose the right mode for you and enjoy the possibilities that the Yeelight lamp offers.
