

Yeelight Ceiling Light A2101R900 (starry)

Yeelight Ceiling Light A2101R900 (starry)

Ref: 6924922214915

The Yeelight brand is part of the Xiaomi ecosystem.

Yeelight Ceiling Light A2101R900 Starry

The Yeelight lamp will light up your home with a warm and eye-pleasing light. CRI value of Ra95 guarantees excellent representation of natural colors, and remote control makes it easy to use. In addition, the lamp has a function to adjust the color temperature, so you can adjust its operation to your needs. And the moonlight mode makes falling asleep easier by reducing the lamp brightness to a minimum. The white, minimalist design will perfectly fit into a modern interior, and the well-thought-out design prevents insects and dust from getting inside the lamp. In addition, the starry version evenly illuminates the entire space, providing soft light without additional shadows.

"Hey Alexa, turn off the light"

The A2101R900 is extremely simple to operate. The Yeelight ceiling light works with platforms, so you can control the lights with your voice or with a single tap on your phone screen. The product is compatible with Amazon Alexa, Google Assistant, Apple Homekit, and Samsung SmartThings.

Control it as you want it

For more freedom of use, you can control the Yeelight ceiling lamp with the app, Smart Dimmer switch and Bluetooth remote control. The

app allows you to conveniently control the light no matter where you are. While the Bluetooth switch and remote control allow you to control the power and the brightness of the light.

Installation in a few steps

Yeelight lamp can be installed in two ways. Installing the lamp using the base is quick and easy. In addition, it is compatible with all previous A2101 Series models, except for lamps designed for the living room. In addition, the new quick-change coupler module allows you to install the lamp by pushing the lock switch in place.

User-friendly design

The Yeelight smart ceiling lamp is designed so that its light covers most of the room. You can also adjust the lighting to suit your needs. The lamp has a color temperature adjustment function from 2700K to 6500K. What's more, the sealed design prevents insects and dust from getting inside the lamp, saving you time cleaning it.

Warm and eye-pleasing light

Give your rooms color! The CRI is 95Ra, which means that the colors it produces reflect natural colors. The A2001R900 will also help you create the right atmosphere with a number of available modes to choose from. Moreover, the product has a moonlight mode that will help you fall asleep faster. The brightness of the lamp is reduced to a minimum, and the light produced by it is pleasant to the eyes.

SLISAON technology

By using advanced SLISAON technology, using Yeelight lighting is even more convenient. SLISAON technology, by activating the "Flex Switch" option in the app, allows you to remotely control the lighting even if the lamp has been turned off via a bell switch.
