

Yeelight Sunset projection Lamp

Yeelight Sunset projection Lamp

Ref: 6924922214939

The Yeelight brand is part of the Xiaomi ecosystem.

Yeelight Sunset Projection Lamp

Create a unique atmosphere in your home or make it easy to take stunning photos. The Yeelight Sunset projection lamp generates warm, eye-pleasing light that is reminiscent of a sunset. It has a 2-stage brightness adjustment and comes with a magnetic stand so you can adjust its position. The built-in 1800mAh battery provides long runtime, and the standard 1/4 threaded hole allows you to mount the light on the tripod of your choice.

Always with you

Are you dreaming of a photo session on the beach? Or maybe you prefer a forest setting? The Yeelight Sunset projector lamp can accompany you almost anywhere! Light and handy - its transport will not be a problem for you. The device is also equipped with a durable rechargeable battery that allows it to work wirelessly. To charge the lamp, simply connect it to a power source using a USB-C cable.

Customize it to your needs

The head of the light can be freely rotated by 360°. This way you can easily position it to provide exactly the illumination you want. The

set includes also a specially designed, magnetic stand, with which you can safely place the lamp on any flat surface and adjust its position to your expectations. The device also allows for 2-stage brightness regulation.

Ideal for artists

Do you often take photos, record films or conduct live streams? The Yeelight Sunset lamp will help you create a unique, romantic atmosphere and a one-of-a-kind shot! The device is equipped with a standard 1/4 thread hole, so it is compatible with most tripods available on the market. So you can easily set it up on a tripod and take a perfect selfie!

It will change the character of any room

Emphasize the character of the selected arrangement and take care of a unique atmosphere in the room. Yeelight Sunset lamp generates soft light associated with the setting sun and brings back memories from vacations. It is ideal for example in a bedroom, living room or dining room. You can also use it in your restaurant, cafe or bookstore.

High quality of manufacturing

The lamp is made of high quality materials such as ABS and glass which transmits light perfectly. Modern LED COB diode guarantees low energy consumption, does not cause glare and is distinguished by corrosion resistance and long life. As a result, the Yeelight Sunset not only provides excellent illumination but is also extremely durable.
