

Yeelight Closet Sensor Light 40cm - black 4000 K

Yeelight Closet Sensor Light 40cm - black 4000 K

Ref: 6924922214755

The Yeelight brand is part of the Xiaomi ecosystem.

Yeelight Motion Sensor Closet Light 4000K

Have you ever been looking for something in your closet after dark? When the light is off, it's often impossible to find anything, and if you turn it on, you risk waking up the rest of the household. With Yeelight you can forget about such problems! The ultra-slim motion-sensing Closet Light will automatically turn on when it detects your presence and provides you with an eye-friendly lighting with a color temperature of 4000K and adjustable brightness. This easy-to-install, wireless device comes in 3 sizes and 2 colors - you're sure to find the perfect version for you.

Discover the benefits of a motion sensor light

No more searching for the right buttons in the dark. The light has a built-in precision motion sensor with an operating range of up to 4m in front and up to 2m on both sides at a maximum angle of 120°. This ensures that Closet Light will automatically turn on the light as soon as it detects your presence. Navigating your apartment and looking for anything after dark just got easier!

Provide optimal lighting and save electricity

The device is equipped with an intelligent light-sensitive sensor that detects ambient conditions. If the room is dark, the light will turn on after detecting your presence. If the room is bright, the light will not be turned on, which will save you electricity. You can also manually

turn on the Closet Light at any time of the day by simply pressing and holding the appropriate button.

Sight-friendly light with adjustable brightness

The lamp generates an eye-friendly, neutral light with a color temperature of 4000K. This allows it to optimally illuminate any corner. What's more, the brightness of the light can be adjusted - in this way you can better adapt it to your needs, expectations or habits.

The perfect addition to your chosen space

The width of the lamp is only 0.9cm. Thanks to this, you can easily place it in a chosen spot - it will not take up too much space. What's more, the high quality metal finish gives the device a modern, industrial character - with its help you will perfectly complement the decor of any interior.

Forget about installation problems

Mounting the device is fabulously easy and will only take you a few moments. You do not have to worry about wiring or drilling appropriate holes. Just use the included self-adhesive magnetic mounts. Stick them in a chosen location and then attach the lamp to them. If necessary, you can also remove it at any time and take it with you anywhere you need it. Note: the adhesive mounts are disposable and should not be peeled off.

Long runtime - convenient charging

You don't have to worry that your light will fail too quickly. Each variant of the Closet Light is equipped with a durable rechargeable battery that provides surprisingly long runtime. Assuming you use the device with moderate frequency, one charge will last you for about 4-6 months! To charge the light, simply connect it to a power source using the USB-C port.

Choose the best option for you

Choose the perfect version of the light for you. There are 3 length variants of Yeelight Closet Light available for sale - 20cm, 40cm and 60cm. So you can optimally adapt it to the dimensions of your cupboard or kitchen countertop. The lamp was also prepared in 2 color versions - black and silver. This allows you to perfectly match it to the arrangement of the room.
