

## Yeelight Smart Light Panels YLFWD-012

Yeelight Smart Light Panels YLFWD-012

Ref: 6924922216865

The Yeelight brand is part of the Xiaomi ecosystem.

### Yeelight Smart Light Panels

Do you want to decorate the walls in a selected room in an original way and create a unique atmosphere? Now it is possible! The triangular Yeelight Smart Light Panels offer plenty of modes and effects to choose from and are compatible with Razer Chroma RGB and Overwolf gaming platforms. They can also be synchronized with music! You can arrange any composition with them and operate them remotely - using the Yeelight app or your voice assistant (Google Assistant, Amazon Alexa). The set includes 6 panels.

### Something special for gamers

Are you looking for a high level of immersion? Or perhaps you want to create a unique atmosphere in your gaming zone? Yeelight panels will prove to be a real hit! They are distinguished by their compatibility with Razer Chroma RGB and Overwolf platforms. This means you can sync them with the games of your choice to give you dynamic lighting effects tailored to the events on screen. Take your gaming experience to a new level with Yeelight!

### Arrange it just the way you want

No longer do you have to settle for off-the-shelf solutions. The triangular LED panels can be arranged in any way you like to create original compositions. A simple hexagon? Fancy snake? Or maybe an elegant rhombus? The possibilities are almost endless! And if you need more panels, you can buy a separately available extension. Create a delightful decoration of the wall and give the arrangement of the chosen room a unique character!

### Synchronized with music

Do you like listening to music? Or are you planning a house party? With Yeelight Smart Light Panels you can easily create a fantastic atmosphere! You can synchronize the panels with music using the built-in microphone with sound recognition function or connect them with headphones using the appropriate cable. There are up to 20 rhythmic modes to make listening to music even more enjoyable!

### Remote control

Now you can conveniently operate your light panels from a distance. Simply pair them with the Yeelight app, which is available for free download from Google Play or the App Store. With its help, you can not only remotely turn on and off the light, but also, for example, adjust brightness, create schedules and set timers. The panels are also compatible with Google Assistant and Amazon Alexa assistants. This means that you can also easily operate them using voice commands!

### The perfect light for every occasion

Getting ready for a late-night movie marathon? Or perhaps you want to spend some quality time with your family? Or maybe you want to play your favorite game? With Yeelight you can easily take care of the right lighting and create a unique atmosphere! Smart Light Panels allow you to choose from 3 modes and 20 lighting effects, so you can easily adjust it to your liking. With just a few clicks in the app, you can completely change the character of the room!

### Incredibly durable

Yeelight light panels not only provide you with interesting visual effects, but also surprise you with their durability. They will serve you well for a long time. They are characterized by tight, solid construction and are durable enough that you can change their location without any fear. They are characterized by high resistance to wear - they are not afraid of frequent mounting and dismounting. What is more, the life span of the panels reaches as much as 25,000 hours!
