

Desk Lamp Yeelight LED V1 Pro (base version)

Desk Lamp Yeelight LED V1 Pro (base version)

Ref: 6924922218760

The Yeelight brand is part of the Xiaomi ecosystem.

Desk Lamp Yeelight LED V1 Pro - perfect lighting at all times

The Yeelight V1 Pro intelligent desk lamp surprises with its functionality. It automatically adjusts the brightness of light to the conditions in the room, and the light emitted by it is close to natural, safe for the eyes and has a high color rendering index. Its operation is facilitated by both a comfortable touch panel and the possibility of pairing with Yeelight application or selected smart assistant. Stylish design of the lamp makes it a perfect complement to any arrangement in your apartment.

It will automatically adjust the light to your needs

The V1 Pro is equipped with dual bionic sensors, which are responsible for detecting ambient light and reading light. They also make the device automatically adjust the brightness of the light to the changing conditions, creating an optimal environment for work, study or rest. You don't have to worry about anything anymore - the intelligent Yeelight lamp will take care of everything for you. What's more, a special indicator will tell you whether the lighting is suitable for reading. When it lights up green, you can take care of your work in peace. When it is red, you need to adjust the light to the current conditions.

A desk lamp for the whole family

The lamp also offers special modes for children and adults. The first one is suitable for delicate, young eyes. When it is activated, V1 Pro

emits light at the color temperature of 4000K during the day and 3700K at night. These are optimal values that help to focus during learning and calm down before bedtime, while not exposing the child's eyes to fatigue or damage. In adult mode, the color temperature of light during the day is 5000K and 4000K at night. Such lighting is perfectly adapted to already developed eyes. During the day it is good for work, and in the evening it helps to relax. All this makes it easy to adapt the V1 Pro to the needs of your family!

It will evenly light up your desk

The innovative technology used in the production of V1 Pro makes the lamp evenly illuminate a specific surface. Moreover, the light does not fall directly into the eyes, reducing the risk of damage. This groundbreaking solution also prevents the casting of unwanted shadows. All of this makes the lighting not shatter and is completely safe for your eyesight, providing unparalleled comfort during study, work and rest.

Take care of your eyesight

Advanced SunLike technology makes the lamp generate light close to natural. Its color rendering index Ra is up to 95! V1 Pro also eliminates harmful blue light. Moreover, a special constant current driver effectively reduces annoying flickering. All of this makes the device safe to the eyes and fully eye-friendly, reducing the risk of its damage. At the same time, the objects viewed in V1 Pro light look great - their colors are almost as beautiful and vivid as in the sunlight.

Control the lighting from any place

V1 Pro is also extremely simple to use, which is guaranteed by a comfortable and sensitive touch panel. That is not all! You can also connect the device to the Yeelight app and use it to remotely set the color temperature and brightness of the light. The device also works with Google Assistant, Amazon Alexa, Apple HomeKit, Samsung SmartThings and IFTTT. Pair it with your chosen smart home management system and enjoy a whole range of new and amazing possibilities! Control the lighting from anywhere using your smartphone or voice commands - almost nothing limits you!

Designed to make you happy

The device is also unique in its exceptionally practical, multi-axis design. Thanks to it you can easily adjust the height of the lamp to the height of its user, which makes it almost "grow" together with your child. You can also freely change the position of the V1 Pro to always optimally illuminate your desk, table or laptop keyboard. The lamp has been designed with great attention to detail - it impresses with its timeless design, which combined with its elegant white color makes it fit perfectly into your arrangement and emphasizes its character.

Choose the right version for yourself

This is not the end of surprises - to meet your expectations even better, the manufacturer has prepared 2 versions of the lamp. The first one is equipped with a round base, which enables stable positioning of V1 Pro on a flat surface - for example on a desk or table. The second one is distinguished by a practical clamp, with which you can easily attach the lamp to the shelf or edge of the table, thus saving space. Choose the variant that suits you and enjoy the new, functional device in your home!
