

Yeelight GU10 Smart Bulb W4 (dimnable) - 4pc

Ref: 6924922224044

Yeelight GU10 Smart Bulb W4 (dimnable) - 4pc

Yeelight W4 E27 smart light bulb (dimnable) 4 pcs.

Gain control and let yourself be enveloped by warm light. The Yeelight smart bulb allows you to adjust the color temperature from 2700-6500K and consumes only 9 watts. It also stands out with a light output of 806 lm. You can control its operation remotely from the app or via voice commands - the W4 model works with voice assistants such as Google Assistant and Amazon Alexa. What's more, you'll gain the ability to set work schedules and group more devices. In the package you will find four bulbs.

Create the mood of your dreams

Take care of the right atmosphere and choose the most suitable lighting level for you. The Yeelight W4 smart bulb allows you to adjust the color temperature from 2700K to 6500K. This makes it perfect for any circumstance. Do you want to wake up, greeted by a pleasant glow? Or fall asleep, wrapped in warm light? With Yeelight everything is possible!

Just a few words

You no longer need to get up from the comfort of your couch to adjust the lighting to your needs. The Yeelight light bulb works with Google Assistant, Apple HomeKit, Amazon Alexa, Samsung SmartThings and Yandex Alice. So with just a few words, you can enjoy the desired effects.

Get even more capabilities

Download the dedicated MiHome app and enjoy more conveniences. In addition to remote lighting control, you'll also gain the ability to group control multiple smart LED bulbs and customize scenes to fit the occasion. Do you want to spend a nice evening reading a book? Or are you hosting a party? Choose any scene and delight in a unique mood!

Adjust the work of the light bulb to your lifestyle

Do you wake up and go to sleep at fixed times? You can use the timer function or create a schedule and choose the times you want the W4 to start and stop working. This way the light will automatically turn on when you wake up and turn off when you fall asleep. With just a few clicks in the app, you can get that much convenience.

Refined design

The Yeelight smart bulb will surprise you with its efficiency. You no longer have to worry about excessive electricity bills. Also noteworthy is its compact design and light weight. What's more, the W4 works on the 2.4GHz WiFi band, so you don't need an additional hub to control it. Its installation will also not cause you any problems.

Attention to detail

Thanks to the OTA (over-the-air) update, you can be sure that all the upgraded features of the smart LED bulb will be at your disposal. You can let go of any worries - nothing important will be missed!
