Yeelight E27 Smart Bulb W4 (color) - 4pc

Ref: 6924922224051

Yeelight E27 Smart Bulb W4 (color) - 4pc
Yeelight smart light bulb W4 E27 (color) 4 pcs.
Conveniently control your lighting and create the mood of your dreams. The Yeelight smart bulb allows you to adjust the color temperature from 2700-6500K, offers up to 16 million colors to choose from and allows you to synchronize with music or games, while consuming only 9 watts. It also stands out with a light output of 806 lm. You can control its operation remotely from the app or via voice commands - the W4 model works with voice assistants such as Google Assistant and Amazon Alexa. What's more, you'll gain the ability to set work schedules and group more devices. In the package you will find four bulbs.

Bring color into your life
Forget about limitations and enjoy the wide selection that W4 offers. Up to 16 million colors will be at your disposal. You can also adjust the color temperature from 2700K to 6500K. This makes the bulb perfect for any circumstance. Do you want to enjoy immersion in your favorite game? Or are you organizing a party? With Yeelight you will be ready for any circumstance!

Awaken your senses
With the Yeelight smart bulb you will provide unforgettable experiences for yourself and your loved ones. You can easily synchronize the light with music and delight in original effects. Do you want the colors to change to the rhythm of your favorite song? Now it's possible. All it takes is a few clicks in the app.

Your word is an order

You no longer have to get up from the comfort of your couch to customize your lighting. The Yeelight light bulb works with Google Assistant, Apple HomeKit, Amazon Alexa, Samsung SmartThings and Yandex Alice. So all you need is a voice command to enjoy the desired effects.

Enhance your capabilities

With the Yeelight app, you'll get even more convenience. In addition to remote lighting control, it's also possible to control multiple smart LED bulbs in groups and customize scenes to fit the occasion. Are you planning a movie night? Or are you organizing a birthday party? Fancy a quiet evening with a book? Choose any scene from the many possibilities and enjoy the atmosphere of your dreams. With Yeelight bulb nothing is impossible!

Feel like the hero of the game

Forget about your surroundings and allow yourself full immersion in your favorite entertainment. The Yeelight smart bulb works with popular gaming platforms such as Razer Chroma™ RGB and Overwolf, so you can enhance your gaming experience with lighting effects. Ready to feel like the hero of your favorite game?

Adjust the bulb's operation to your lifestyle

Do you wake up and go to sleep at fixed times? You can use the timer function or create a schedule and choose the times you want the W4 to start and stop working. This way the light will automatically turn on when you wake up and turn off when you fall asleep. With just a few clicks in the app, you can get that much convenience.

Thoughtful solutions

The Yeelight smart bulb will surprise you with its efficiency. You no longer have to worry about excessive electricity bills. Also noteworthy is its compact design and light weight. What's more, the W4 works on the 2.4GHz WiFi band, so you don't need an additional hub to control it. Its installation won't cause you any problems either, and thanks to OTA (over-the-air) updates, you can be sure that all upgraded features will be at your disposal.
