Desk Lamp Yeelight LED V1 Pro (clip version)

Ref: 6924922218753

The Yeelight brand is part of the Xiaomi ecosystem.

Yeelight V1 Pro intelligent desk lamp - always optimal lighting

The Yeelight V1 Pro smart desk lamp surprises with its functionality. It automatically adjusts the brightness of the light to the conditions in the room, and the light it emits is close to natural, safe for the eyes and has a high colour rendering index. Its operation is facilitated by both a convenient touch panel and the ability to pair with the Yeelight app or a smart assistant of your choice. The stylish design of the lamp makes it a perfect addition to any arrangement in your home.

Automatically adjusts the light to your needs

The V1 Pro is equipped with dual bionic sensors, which are responsible for detecting ambient lighting and lighting that is suitable for reading. They also make the device automatically adjust the brightness of the light to your surroundings, creating the optimum environment for working, studying or relaxing. You don't have to worry about anything anymore - the Yeelight smart lamp takes care of everything for you. What's more, a special indicator will let you know if the lighting is suitable for reading. When it is shining green, you can get on with your work in peace. When it is red, adjust the light to suit the current conditions.

A desk lamp for the whole family

The lamp also offers special modes for children and adults. The first is suitable for delicate young eyes. When activated, the V1 Pro emits

a light temperature of 4000 K during the day and 3700 K at night. These are optimum values that are conducive to concentration during study and calmness before bedtime, while not exposing children's eyes to fatigue or damage. In adult mode, the light temperature is 5000 K during the day and 4000 K at night. Such lighting is perfectly adapted to already developed eyes. Before dark it is conducive to work and in the evening it helps to relax. All this makes it easy to adapt the V1 Pro's performance to your family's needs!

#### Evenly illuminates your desk

The innovative technology used in the production of the V1 Pro ensures that the lamp evenly illuminates a specific surface. What's more, the light does not fall directly into your eyes, reducing the risk of damage to them. This breakthrough also prevents unwanted shadows from being cast. All this means that the lighting is non-glare and completely safe for the eyes, providing unparalleled comfort when studying, working and resting.

#### Take care of your eyesight

With its advanced SunLike technology, the lamp emits light close to natural light. Its colour rendering index Ra is up to 95! The V1 Pro also eliminates harmful blue light. What's more, a special DC driver effectively reduces annoying flicker. All of this ensures that the device does not tire your eyes and is fully sight-friendly, allowing you to reduce the risk of damage to your eyes. At the same time, objects viewed in the light of the V1 Pro look superb - their colours are almost as beautiful and vivid as in the glare of the sun.

#### Control the lighting from anywhere

The V1 Pro is also exceptionally easy to operate, guaranteed by a convenient and sensitive touch panel. And that's not all! You can also connect the device to the Yeelight app and use it to remotely set the temperature and brightness of the light. The desk lamp also works with Google Assistant, Amazon Alexa, Apple HomeKit, Samsung SmartThings and IFTTT. Pair it with the smart home management system of your choice and enjoy a whole new range of amazing possibilities! Control your lighting from anywhere, using your smartphone or voice commands - almost nothing limits you!

#### Designed to please

The device is also distinguished by its extremely practical multi-axis design. It allows you to easily adjust the height of the lamp to the height of its user, making it almost "grow" with your child. You are also free to reposition the V1 Pro so that it always illuminates your desk, table or laptop keyboard optimally. The lamp has been designed with great attention to detail - it impresses with its timeless design, which, combined with its elegant white colour, makes it a perfect match for your décor and emphasises its character.

#### Choose the right version for you

That's not the end of the surprises - to meet your expectations even better, the manufacturer has prepared 2 versions of the lamp. The first one has been equipped with a round stand, which allows the V1 Pro to be placed stably on a flat surface of your choice - for example on a desk or table. The second version is distinguished by a practical clip, with which you can easily attach the lamp to a shelf or the edge of a table, thus saving space. Choose the variant that is right for you and enjoy a new, functional fixture in your home!
