

## Yeelight Cube Light Smart Gaming Lamp Panel

Yeelight Cube Light Smart Gaming Lamp Panel

Ref: 6924922216957

### Yeelight Gaming Smart Cube Light Panel

Do you dream of beautiful lighting for your room? However, do you care about an original solution? Yeelight can provide you with it! The light panels, which you can freely set on a dedicated base, will allow you to create a beautiful light and atmospheric atmosphere to suit the situation. They come in 3 different forms - in this offer you will find one gaming Smart Cube Light Panel, which will give the whole thing an amazing character. NOTE: it will work when combined with a dedicated base, available for sale separately. Together with Yeelight, you will stimulate your imagination, because it is more than just lighting!

### Perfect lighting for your stand

Want to create a unique gaming atmosphere? Smart Cube Light Panel can make it possible for you! It is a modular lighting that shines a smooth, soft light. You can easily adjust its colors to your mood or the game in progress. In addition, managing the lighting will make it easy for you to use the control button on the cube, and the matte finish adds to its elegance.

### Many possibilities

Yeelight panels will let your imagination run wild, as you can create many different light combinations with them. When integrated with Razer Chroma and Overwatch, they can adjust to the mood and activity on the screen in real time, which will make them give the perfect ambience while playing games. In addition, the ARGB cube will dynamically reflect the monitor's colors, bringing the highlights off-screen

as well. With the Yeelight panels, you will transform your favorite songs into stunning light shows, as they will move to the rhythm of the music!

#### Stimulate your imagination

With Yeelight you will stimulate your imagination! You can freely combine the panels with each other to create versatile sets. You can put as many as 6 of them on a single base, so the fun with lighting will never end! Smart Cube Light Matrix has the ability to create emoji, letters, as well as many other interesting elements! In addition, you can easily design it to form a clock. Yeelights are more than just lights - you can personalize your room with them!

#### Easy control

Yeelight panels are built with user comfort in mind, so they will work regardless of the system - they are equally suitable for Android and iOS. They also show compatibility with Matter. You can easily connect it with apps such as Apple HomeKit, Google Assistant, Amazon Alexa, Yandex Alice or Samsung SmartThings. With Yeelight, you can forget about connectivity problems! Starting today, you can enjoy light that matches all smart platforms. In addition, the Yeelight Statio PC app will help you immerse yourself in dynamic, liquid colors and enable you to enjoy entertainment at the highest level!
