Yeelight Cube Light Smart Gaming Lamp Matrix - Base

Yeelight Smart Cube Light Matrix gaming light panel - Base
Do you dream of beautiful lighting for your room? However, do you care about an original solution? Yeelight can provide you with it! The light panels, which you can freely set on a dedicated base, will allow you to create a beautiful light and atmospheric atmosphere to suit the situation. They come in 3 different forms - in this offer you will find one Smart Cube Light Matrix gaming panel, which will give the whole thing an amazing character. NOTE: it will work when combined with a dedicated base, which you will find in the set. Together with Yeelight, you will stimulate your imagination, because it is more than just lighting!

Perfect lighting for your stand
One of Yeelight's panels is the Smart Cube Light Matrix. It is equipped with 25 LED beads. Using them, you can customize the panel matrix to your preferences and moods, as they provide endless possibilities! In a special application for your phone, you will be able to draw pictures, adjust their color, and even create a clock! In addition, managing the lighting will make it easier for you to use the control button on the cube, and the matte finish adds to its elegance.

Many possibilities
The Yeelight panels will let your imagination run wild, as you can create many different light combinations with them. When integrated with Razer Chroma and Overwolf, they can adjust to the mood and activity on the screen in real time, which will make them give the

perfect ambience while playing games. In addition, the ARGB cube will dynamically reflect the monitor's colors, so it will bring the highlights beyond the screen as well. With the Yeelight panels, you will transform your favorite songs into stunning light shows, as they will move to the rhythm of the music!

Stimulate your imagination
With Yeelight you will stimulate your imagination! You can freely combine the panels with each other to create versatile sets. You can put as many as 6 of them on a single base, so the fun with lighting will never end! What's more, with the ability to customize the Smart Cube Light Matrix you will stimulate your imagination even more! Yeelights are more than just lights - you can personalize your room with them!

Easy control
Yeelight panels are built with user comfort in mind, so they will work regardless of the system - they are equally suitable for Android and iOS. They also show compatibility with Matter. You can easily connect them with apps such as Apple HomeKit, Google Assistant, Amazon Alexa, Yandex Alice or Samsung SmartThings. With Yeelight, you can forget about connectivity problems! Starting today, you can enjoy light that matches all smart platforms. In addition, the Yeelight Statio PC app will help you immerse yourself in dynamic, smooth colors and enable you to enjoy entertainment at the highest level!
