

Włącznik Yeelight Wireless Smart Dimmer

Włącznik Yeelight Wireless Smart Dimmer

Ref: 6924922219590

The Yeelight brand is part of the Xiaomi ecosystem.

Wireless Smart Dimmer

The Yeelight Smart Dimmer, a smart, wireless and universal switch, works with Yeelight-branded ceiling lights. Its minimalist design has won the internationally recognized Red Dot Design Award and IF Design Award.

Be online, be smart

The Yeelight Smart Dimmer keeps your Yeelight fixtures online all the time, giving you the freedom to control your fixtures when and where you want. Smart Dimmer is compatible with LED Ceiling Light, Galaxy series lights and Crystal Pendant Light.

Bluetooth remote control

Aided by Bluetooth control, the Yeelight Smart Dimmer keeps smart devices online. This makes voice and app-based control possible.

Remote control without the need for wiring

A convenient Velcro fastener frees you from the hassle of wiring, while allowing you to install the switch anywhere. This way you'll be able to easily control the light in bed, on the couch or any other convenient location.

Battery life of up to 2 years

The switch is designed to draw as little power as possible from the battery, which has a lifespan of up to two years at a frequency of use of 50 times a day (40 presses and 10 turns). * The battery is sold separately.

Integrated functions

The universal switch allows quick adjustment of brightness, light temperature and color. In doing so, it provides great fun for everyone - the elderly and children. Press to turn the device on/off. Turn to adjust the brightness. Press and turn to adjust color temperature. Double press for switching between day and night modes. Press and hold to change color.

Elegant white that fits your interior perfectly

The Smart Dimmer has a versatile design that will fit into any interior - whether it's decorated in a modern or classic way. Simple and elegant lines will emphasize the style and character of the room.

Tested durability

The switch has been thoroughly tested so that it can keep you company for as long as possible.

Top quality

A refined structure with high-quality materials will provide you with the ultimate comfort. Press the rotary button anywhere to adjust the brightness.

Refined every detail

The Smart Dimmer switch is easy to connect and operate. Just press the device for 3-seconds to activate the quick pairing mode with Yeelight lights. The rotating button allows you to easily adjust the light by pressing any part of the button.
