

Orico W5P-100 USB to 4x USB 2.0 Hub Adapter (black)

Ref: 6942227120342

Orico W5P-100 USB to 4x USB 2.0 Hub Adapter (black)

Orico W5P-100 USB to 4x USB 2.0 Hub Adapter (black)

The Orico W5P-100 Hub Adapter is a versatile tool that allows you to connect up to four USB 2.0 devices simultaneously for maximum functionality and efficiency. With an external power supply, the adapter is able to support high-capacity hard drives, making it ideal for those who need reliable and efficient equipment for everyday tasks.

Flexible cable options and wide applications

The W5P-100 offers a 1m cable length, allowing you to perfectly match it to your needs and usage scenarios. Whether you're browsing the contents of a U drive on your phone, connecting a mouse and keyboard to a tablet to turn it into a desktop computer, or you want to play games on your phone using a gamepad, the Orico adapter provides a powerful core and super-fast data processing to make work and entertainment much easier.

Compact design and reliable performance

The Orico W5P-100 adapter is designed with versatility and convenience in mind. Its compact, modern design makes it a perfect fit with any set of devices, and the simultaneous operation of four USB 2.0 ports allows you to easily manage multiple devices at once. Whether you need it for work, study or entertainment, this adapter Hub is the perfect solution to meet all your needs.
