

Orico NVME M.2, 10gbps, USB-A to USB-C + USB-C to USB-C driv

Ref: 6942227116895

Orico NVME M.2, 10gbps, USB-A to USB-C + USB-C to USB-C drive enclosure (black)

Orico NVME M.2, 10gbps, USB-A to USB-C + USB-C to USB-C drive enclosure (black)

Orico NVME M.2 drive enclosure is a modern and efficient solution for storage and high-speed data transfer. With support for USB 3.1 Gen 2 technology and data transfer speeds of up to 10 Gbps, it provides instant access to files, making it perfect for both professional and home applications. The compact size and sleek design make the device convenient for daily use and easy to carry.

High data transfer speed

The Orico NVME M.2 chassis is equipped with a Realtek RTL9210 controller, which, combined with the USB-C port, enables data transfer speeds of up to 10 Gbps. This means that transferring large files, such as 4K videos, high-quality photos or Hi-Fi music files, takes just a few seconds. As a result, the device meets the expectations of the most demanding users who need fast access to their data.

Efficient heat dissipation

The enclosure is designed for efficient cooling of the NVMe drive. The aluminum plate and ABS material housing effectively dissipate heat, which prevents the device from overheating even under heavy use. Specially designed ribbing on the surface further aids heat dissipation, ensuring stable drive operation and longer hardware life.

Compact and portable design

Thanks to its compact dimensions (108 mm in length, 29.5 mm in width and 13.5 mm in thickness), the case is easy to carry and will be perfect for traveling. Its compact shape allows you to carry it in your pocket, and its robust design provides protection against mechanical damage. It is the ideal solution for those who need mobile and efficient data storage.

Universal compatibility and easy installation

The Orico NVME M.2 enclosure is compatible with a variety of NVMe SSD sizes, including 2230, 2242, 2260 and 2280, making it a versatile solution for many users. Installing the drive is extremely easy and requires no tools, so even those without technical experience can handle the installation. The enclosure is compatible with Windows, macOS, Linux and Android operating systems, adding to its versatility.

Smart features and energy saving

The drive enclosure is equipped with a function that automatically enters sleep mode after 10 minutes of inactivity, which saves energy and minimizes wear and tear on the SSD. This smart solution makes the use of the device more economical and environmentally friendly.

Included

Drive enclosure
Type C to type C cable, 0.15 m
Type C to type A cable, 0.15 m
User manual

Name:Orico NVME M.2, 10gbps, USB-A to USB-C + USB-C to USB-C drive enclosure (black)
Manufacturer:Orico
Model:M2PV-C3-BK-BP-IP
Color:Black
Dimensions:108 mm (length) x 29.5 mm (width) x 13.5 mm (height)
Data cable:USB Type A to USB Type C, 0.15 m; USB Type C to USB Type C, 0.15 m
Installation:Tool-free installation, screw tightening on the back
Supported systems:Windows / macOS / Linux / Android
