

Landing pad PGYTECH Pro for drones 50cm (P-GM-143)

Ref: 6970801337022

Landing pad PGYTECH Pro for drones 50cm (P-GM-143)

PGYTECH Pro drone landing mat 50cm (P-GM-143)

The Landing Mat is the perfect accessory for drone enthusiasts who are looking for a safe and comfortable place to land their devices. Made of high-quality PU material and measuring 50 x 50cm, it provides a stable and visible landing surface. The waterproof and UV-resistant properties of the mat guarantee its durability and protection from adverse weather conditions. The double-sided design allows flexible use of the mat, and its easy folding makes it portable and space-saving.

Safe landing on windy days

In addition, the PGYTECH Pro mat is equipped with 4 holes on the corners to secure it to the ground, ensuring stability even in windy weather. Weighing only 353 grams, the mat is lightweight and easy to carry, making it the perfect addition to your drone kit.
