TWS Transformers TF-T31 headphones (black)

The TF-T31 wireless headphones combine the ear-pleasing sound offered by the 13-millimeter drivers with a distinctive, modern design, referring to the iconic Transformers brand. Thanks to them you can enjoy high quality sound and reliable Bluetooth 5.4 connection. They are also distinguished by ergonomic design and long operating time (up to 5 hours on a single charge).

Latest Bluetooth 5.4 technology

Using Bluetooth 5.4 technology, the TF-T31 headphones offer a stable and fast connection to your device, eliminating interference and lag. This means they're great not only for listening to music, but also for watching movies and playing games. Their additional advantage is their wide compatibility - you can easily pair them with most smartphones or laptops running Android, Windows or iOS.

Ergonomic design and lightweight

Transformers TF-T31 will provide you with the comfort you dream of. Their lightweight, ergonomic design makes them fit perfectly to the shape of your ear, ensuring comfort even during prolonged wear. This makes them an excellent choice for everyday use, whether during intense activities or relaxing moments. At the same time, the headphones are very easy to use - they are equipped with touch panels, with which you can easily stop playback, switch a song, answer the phone and much more.

Two playback modes - music and games

The TF-T31s offer two modes: music, which provides full, surround sound for music lovers, and gaming, which minimizes latency and offers more precise sound, perfect for gaming. So you can customize the headphones to your needs and enjoy optimal audio in any situation!

Panoramic surround sound

The Transformers TF-T31 headphones use panoramic surround sound technology, which offers an immersive musical experience wherever you are. In addition, the 13mm drivers provide high-quality sound with a clear division between low, mid and high tones, allowing you to enjoy music with full depth and detail.

All-day battery performance

With powerful batteries and low-power Bluetooth 5.4 connectivity, the TF-T31s allow you to play music for about 5 hours on a single charge. What's more, the included case allows you to charge the headphones up to several times and is charged via USB-C - it will only take about 1.5 hours.

Included

Headphones Charging case USB-A to USB-C charging cable
