Nillkin CamShield Pro Case for iPhone 16 Pro (black)

The Nillkin CamShield Pro Case for iPhone 16 Pro is a combination of style and functionality, offering full protection for your phone, including its most sensitive components, such as the camera. Thanks to its well-thought-out design and the use of high-quality materials, the case provides not only security, but also an elegant look.

Lens protection with sliding cover

The Nillkin CamShield Pro features an innovative sliding lens cover that protects the camera lens from damage and dirt. The sliding mechanism works smoothly and is integrated into the entire case, ensuring easy handling and pristine condition of the camera during daily use.

Advanced protection and convenient use

The Nillkin CamShield Pro case is made of durable TPU and PC materials, which effectively absorb impacts and protect your phone from scratches. The four corners are equipped with air cushions that further protect the device in case of a fall. Raised edges around the screen and camera (by 1 mm) minimize the risk of scratches, even when the phone is lying on a flat surface. The soft edges of the case make it easy to put it on and take it off without risking damage to the device, while precise cutouts ensure a perfect fit for buttons and ports, guaranteeing convenience of use and full access to all functions.

Elegant and timeless design

The classic stripes and minimalist design of the Nillkin CamShield Pro case give it an elegant character that will work in any situation. The non-slip surface improves grip confidence, while a specially designed lanyard hole enhances the case's functionality, allowing you to carry your phone with ease.

Compatible with magnetic charging

The case supports magnetic charging, thanks to a built-in system with a powerful 1500g magnet. The stable attraction provides a secure hold on magnetic chargers, ensuring faster and safer charging.
