Nillkin CamShield Pro Case for iPhone 16 Pro Max (black)

The Nillkin CamShield Pro for iPhone 16 Pro Max is a rugged case that provides the highest level of protection for your device, while maintaining a sleek design. Equipped with modern technologies, such as a sliding lens cover and magnetic charging compatibility, the case will meet the expectations of the most demanding users.

Innovative camera protection

The Nillkin CamShield Pro case is equipped with a patented sliding lens cover that effectively protects the camera from scratches and dirt. The cover is easy to use, slides smoothly and blends seamlessly with the overall case, ensuring complete protection without compromise.

Advanced protection against damage

The case is made from a combination of high-quality TPU and PC, providing full protection against drops and impacts. The four corners of the case are equipped with special air cushions to absorb shocks. In addition, raised edges around the screen and camera (by 1 mm) minimize the risk of scratches during daily use.

Soft edges and elegant design

The soft edges of the case make it easy to put it on and take it off without the risk of damaging the phone, while precise cutouts provide convenient access to buttons and ports. The perfect fit keeps your phone safe and comfortable to use. The timeless, minimalist design with a classic striped pattern adds elegance to the case, while the non-slip texture ensures a secure grip. An additional lanyard hole adds convenience, allowing you to carry your device with ease.

Magnetic charging compatibility

With a built-in double-ring magnet, the case is fully compatible with magnetic charging. The strong attraction (1,500g) ensures stability during charging, making the process fast and efficient, while guaranteeing the protection of your device.
