Etui Nillkin Qin Prop Leather iPhone 16 Pro Max (czarny)

Nillkin Qin Prop Leather iPhone 16 Pro Max Case (black)

The Nillkin Qin Pro Leather case in black is a stylish accessory designed specifically for the iPhone 16 Pro Max. Made of high-quality PU leather, it combines elegance and functionality to provide full protection for your phone. The innovative design of the case with built-in lens cover and special card slot makes it an excellent choice for users who value both aesthetics and convenience.

Double protection and innovative design

The Qin Pro Leather case offers advanced protection thanks to a combination of durable TPU frame and hard PC plastic, which effectively protect the phone from drops and shocks. The lens cover, made of metal with a unique CD texture, protects the camera from scratches and dirt, and when open, acts as a stand for convenient hands-free use of the phone.

Functionality for everyday use

The Nillkin Qin Pro Leather case has built-in card slots, allowing you to conveniently store essential documents without carrying a wallet. The slim design provides full 360° protection without excessively increasing the size of the phone, making the case not only practical, but also lightweight and easy to use.

Soft lining and screen protection

The interior of the case is covered with a soft microfiber lining, which effectively protects the phone's screen from scratches. With raised edges around the camera and screen, the case further protects the phone's key components from damage during daily use, while maintaining its sleek appearance.

Comfortable to use and durable

Nillkin Qin Pro Leather is designed with user comfort in mind. The special leather technology provides resistance to fingerprints and stains, while the durable design protects your phone from everyday scratches and damage. In this way, the case remains stylish and functional for a long time, regardless of the intensity of use.
