

Filters VND PolarPro for Mavic 3 (2-pack)

Filters VND PolarPro for Mavic 3 (2-pack)

Ref: 817465027509

Set of 2 VND PolarPro filters for DJI Mavic 3

Create even more stunning aerial photos and videos. This set includes 2 dedicated PolarPro VND filters for the DJI Mavic 3 - 2-5 and 6-9. They are made from high-grade German CinemaSeries Glass for color neutrality and low refractive index. The AirFrame 4.0 aluminum frame is extremely durable, yet lightweight - it will not affect the flight quality of your drone in any way. The VND filters reduce the shutter speed and provide precise light control even in very bright environments. The accessories come in a practical package for easy storage and transportation.
