Nillkin FlexWing tablet stand (black)

The Nillkin FlexWing is a tablet stand that, with its ultra-slim design of just 4mm thick, integrates perfectly with your device without affecting its weight or comfort. It's the perfect solution for people who value mobility, yet need a stable support while working or entertaining. The visually sleek and elegant design provides an aesthetically pleasing appearance, while maintaining the full functionality of the tablet.

High-quality materials and thoughtful design

The FlexWing stand is made of high-quality eco-leather, which is pleasant to the touch, yet durable and scratch-resistant. Robust hinges made of manganese steel and a precise adjustment mechanism guarantee stability and longevity. Thanks to tests in which the stand has undergone more than 20,000 opening and closing cycles, you can be sure that this accessory will withstand intensive use.

Angle adjustment and versatility of use

FlexWing offers an adjustable angle, allowing you to adjust the tablet to any position, whether you're watching movies, participating in video conferences or working on documents. You can position the tablet both horizontally, ideal for entertainment and work, and vertically, which is perfect for reading or taking notes.

Compatibility with multiple devices

Thanks to the various sizes available, the Nillkin FlexWing is compatible with a wide range of tablet models from manufacturers such as Apple, HUAWEI and Xiaomi, making it a versatile accessory. The stand fits tablets from 9.7 to 11 inches, providing flexibility and a perfect fit for your device.
