

Electric precision screwdriver, set of 25 bits HOTO QWLSA001

Ref: 6974370801618

Electric precision screwdriver, set of 25 bits HOTO QWLSA001 (new version)

Electric precision screwdriver, HOTO QWLSA001 25 bit set (new version)

HOTO electric precision screwdriver is a comprehensive set that includes 25 bits made of S2 alloy steel with a hardness of 60 HRC, which guarantees their strength and wear resistance. Thanks to the integrated magnetizer, each bit is magnetic, which facilitates precise screwdriving and screw replacement. This set is perfect for a variety of tasks, from everyday home repairs to advanced technical projects such as working on PCBs, STEM robots or 3D models.

Fast and efficient work

The HOTO screwdriver is equipped with a 170 RPM motor for fast and smooth screwdriving, which significantly speeds up tasks. In addition, the device offers two torque settings (0.05 Nm and 0.2 Nm), allowing you to adjust the force for different scenarios and materials, ensuring precise control over every movement.

Superior visibility and precision

The built-in 360° shadow-free LED illumination guarantees incredible clarity when working, even in hard-to-reach areas. This functionality makes the tool ideal for tasks that require precision, such as assembling small electronic components, repairing eyeglasses or other complex manual work. With HOTO, precision operations become easier and more efficient.

Ergonomic design and user comfort

HOTO was designed with user comfort in mind. The non-slip coated handles provide a secure grip and minimize hand fatigue during prolonged use. The lightweight, aircraft-grade aluminum construction, achieved through precision CNC machining, combines durability with comfort, making this screwdriver the ideal tool for long-term use.

Easy access and storage

Designed with convenience in mind, the screwdriver features a magnetic bit storage compartment for quick access and secure storage of each piece. Each bit is solidly held in place, preventing them from getting lost and making it easy to organize. This solution is not only practical, but also saves time by allowing you to quickly prepare the tool for work.

Reliable design

The HOTO screwdriver is made of high-quality aircraft-grade aluminum, which ensures its durability and resistance to mechanical damage. Each bit made of S2 steel with a hardness of 60 HRC has a rust-resistant finish, further enhancing their longevity. This tool is ready to tackle even the most demanding tasks, offering strength, durability and reliability in any situation.

Included

Electric precision screwdriver
Magnetic bit storage case
25 interchangeable bits
USB Type-C charging cable
Bit Specifications:
Bit dimensions: C4 x L28 mm
Bit material: S2 alloy steel

Name: Electric precision screwdriver, set of 25 bits HOTO QWLSA001 (new version).
Product model: QWLSA001
Color: Dark gray
Product Weight: Approximately 314g
Screwdriver Dimensions: Approximately 159 x Ø17 mm
Screwdriver weight: Approximately 60 g
Maximum torque of electric motor: 0.2 N-m
Maximum manual torque: 3 N-m
Input parameters: 5V □ 0.2A
Rated voltage: 3,7V □
Battery type: Lithium-ion
battery
Battery Capacity: 350 mAh
Charging time: Approximately 160 minutes
Idle speed: 170 rpm
Operating temperature range: -10°C to 45°C
Product dimensions: Approximately 182 x 71.3 x 26.1 mm
Bit types: Phillips: PH000/PH00/PH0/PH1/PH2; Hexagonal: H0.7/H0.9/H1.5/H2.0; Flat: SL1.5/SL2.0; Torx: T2/T3/T4; Hollow Torx: T5H/T6H/T8H/T9H/T10H; Five-pointed star: P2/P5; Triangle: TW1; Triangle bit: 2.3; Y-shape: Y0.6; U-shape: U2.6; Polygon: W1.5
