ESR Qi2 3-in-1 Wireless Charging Station (HaloLock) with CryoBoost

ESR's 3-in-1 charging station with CryoBoost technology is a solution that simultaneously charges your iPhone, Apple Watch and AirPods. Certified Qi2 and Apple charging, advanced security features and efficient cooling make this product ideal for a nightstand or desk.

Qi2 fast charging

With Qi2, the station allows you to quickly charge your iPhone with 15W of power, shortening the process by 60 minutes compared to standard chargers. CryoBoost technology prevents overheating by keeping the phone at an optimal temperature below 38°C, extending battery life and ensuring safe charging.

Certified Apple Watch charging

The station supports Apple Watch's original fast charging, allowing it to charge 50 minutes faster than with other chargers. With this solution, your Apple Watch will almost always be ready to go.

Compatible

The charging station is compatible with iPhones 12 series and above, all Apple Watch models and AirPods Pro/3/2. You can use MagSafe cases, ESR magnetic cases or ESR magnetic rings without worry, making the station extremely versatile and convenient.

Safe use

ESR has ensured complete safety during charging by offering an advanced protection system including foreign object detection, protection against overheating, overvoltage and overcharging. As a result, the station ensures complete safety for both the user and their devices.
