

Grip Polarpro LiteChaser for iPhone 13 Pro

Grip Polarpro LiteChaser for iPhone 13 Pro

Ref: 817465027707

PolarPro's Grip LiteChaser for iPhone 13 Pro

Designed for the iPhone 13 Pro, the LateChaser Grip by PolarPro is one of the safest tripod mounts available. It can also act as an ergonomic grip to help you create videos with your smartphone. It perfectly fits the hand shape of most users. The special rail system allows you to quickly and conveniently switch between vertical and horizontal recording. There is a cold shoe mount on the top of the accessory and a 1/4"-20 mount on the bottom, so you can mount an additional microphone, lighting or other accessories. The product is only compatible with the LiteChaser Pro case for the iPhone 13 Pro. The two-stage locking mechanism allows for its stable, secure mounting. The accessory is lightweight and handy enough to keep on hand at all times.
