

Grip Polarpro LiteChaser for iPhone 13 Pro Max

Grip Polarpro LiteChaser for iPhone 13 Pro Max

Ref: 817465027714

PolarPro's Grip LiteChaser for iPhone 13 Pro Max

Designed for the iPhone 13 Pro Max, the LiteChaser Grip by PolarPro is one of the most secure tripod mounts available. It can also act as an ergonomic grip to help you create videos with your smartphone. It perfectly fits the hand shape of most users. The special rail system allows you to quickly and conveniently switch between vertical and horizontal recording. There is a cold shoe mount on the top of the accessory and a 1/4"-20 mount on the bottom, so you can mount an additional microphone, light or other accessories. The product is only compatible with the LiteChaser Pro case for iPhone 13 Pro Max. The two-stage locking mechanism allows for its stable, secure mounting. The accessory is lightweight and handy enough to keep on hand at all times.
