Sanag A30S Pro bone conduction wireless headphones (black)

Sanag A30S Pro bone conduction wireless headphones (black)

The Sanag A30S Pro are bone-conduction wireless headphones that let you enjoy music without losing touch with your surroundings. With 360° Air Conduction Stereo (ACS) technology, they offer high-quality sound that surrounds the listener from all sides, providing an immersive experience. In addition, Bluetooth 5.3 connectivity, a runtime of up to 9 hours and IPX7 water resistance make the product perfect for everyday activities - it will work well during workouts, bike tours and more.

Immerse yourself in stunning sound

The Sanag A30S Pro headphones' 360° Air Conduction Stereo (ACS) technology opens up a world of surround sound that surrounds and draws you in. What's more, thanks to bone conduction, you can enjoy delightful sound without having to cover your ears - ideal when you want to hear what's going on around you, such as while jogging or at work.

Lightweight and waterproof

The Sanag A30S Pro weigh only about 22 grams, and their ergonomic design with ear hooks provides excellent stability no matter how hard you move. This allows you to focus on your workout without worrying about the headphones shifting or falling off. Their additional advantage is IPX7 water resistance - sweat, rain or splashing are no threat to them!

Long working time, convenient charging

Thanks to the energy-efficient battery, fully charged headphones last up to 9 hours. This is ideal for both long workouts and intense days on the go! What's more, the Sanag A30S Pro allows fast and convenient magnetic charging - it will only take about 1.5 hours.

Crystal clear sound thanks to advanced technologies

Innovative Biphase Wave Offset (BWO) technology minimizes background noise, ensuring clear sound and improving speech clarity. This makes conversations and music sound better even in noisy places, which is invaluable during outdoor activities or when traveling. In addition, the DT3.0 solution provides directional signal transmission, offering an even better acoustic experience.

64 GB memory - your music always at hand

The headphones are equipped with as much as 64 GB of internal memory, allowing you to store up to 20,000 songs on them. So you can easily listen to music during workouts - no need to take your smartphone with you! With Sanag you always have access to your favorite songs, no matter where you are.

Bluetooth 5.3

Sanag A30S Pro use Bluetooth 5.3 technology, so they provide a stable connection, low latency and low power consumption. So you can enjoy freedom of movement and long playback time in almost any situation!

Personalize your audio with the Sanag app

Connect your headphones to the Sanag app and enjoy additional capabilities. With its help, for example, you can conveniently manage playback, check the charge level and change sound settings. Highlight the best of your favorite music genres!
