Facial massager EMS ANLAN 01-ADRY13-02A

Ref: 6953156300859

Ultrasonic face massager ANLAN 01-ADRY13-02A

Acne, dark circles, under eye circles, wrinkles - these and other problems you will solve with the Anlan massager. The device uses ultrasonic vibrations and EMS microcurrent, it also offers red and blue light therapy. It will also increase the effectiveness of the cosmetics you use. Additionally, its ergonomic design ensures comfortable use. See for yourself!

Warm and cold compresses

The massager offers warm and cold compresses and allows you to adjust the temperature to your own needs. The warm compress uses temperatures of: 38°C / 40°C / 42°C, which will quickly open pores and cosmetics will be better absorbed. On the other hand, cold compresses (6°C / 8°C / 12°C) will help tighten pores and help cosmetics stay on the skin longer.

More effective cosmetics

Choose ionic and high-frequency vibration modes to make your cosmetics more effective. The technologies used help nourish ingredients to penetrate deeper into the skin for thorough moisturizing.

EMS Microcurrent

The device uses EMS microcurrents to smooth wrinkles and firm the skin. You can also adjust the intensity of this treatment in 3 levels.

Moreover, the blue light will help fight acne and the red light will delay the aging process and reduce the appearance of wrinkles.

Ergonomic design, simple operation

Handling this massager will not be a problem. Thanks to its ergonomic design, it fits perfectly in your hand, and its wireless construction increases comfort of use. With the help of buttons you can set the working mode, temperature, etc. What's more, the easy-to-read LCD provides convenient access to the most important information. Additionally, after 5 minutes of non-use, the massager will automatically turn off. Moreover, the set comes with a case for easy storage of the device.

Included

ultrasonic massager
