

Vibrant Facial Cleaning Brush Liberex CP005168 (Pink)

Ref: 6931446930801

Vibrant Facial Cleaning Brush Liberex CP005168 (Pink)

Liberex Facial Cleaning Brush

Take care of your comprehensive facial care with the Liberex brush. It is equipped with soft DuPont bristles that will effectively but gently remove dead skin, impurities and blackheads. It offers 2 speed modes and is also IPX7 water resistant. Additionally, you will find 2 brush heads in the set: for sensitive skin and normal skin.

Effectively gets rid of impurities

Cleansing your skin with the Liberex brush is 6 times more effective than regular face washing. The device is equipped with DuPont bristles, which enable thorough cleansing. Additionally, the head of the toothbrush has been designed in a way that prevents debris from getting between the bristles. This solution will make it easier to keep the toothbrush clean and prevent the growth of bacteria.

2 speed levels

The device offers 2 speed levels that you can use depending on the time of day. In the morning, use the low speed level. The brush will gently clean and stimulate your face. In the evening, use the higher speed level. It will allow you to thoroughly cleanse your skin, removing makeup residue and sebum.

Convenient operation

Using the toothbrush is simple and convenient, so you won't have any problems. The device is equipped with a single button that allows you to control the RF100. Use this button to turn the device on/off or to change the speed level. In addition, a smart timer reminds you every 20 seconds to change the area to be cleaned. Then the toothbrush will automatically turn off after 2 minutes.

User-friendly

The Liberex toothbrush is fully IPX7 waterproof. This means that you can also use it in the shower without any worries. Moreover, its durable battery offers 1.2 hours of uninterrupted use. You can charge the device with the microUSB cable (included). It only takes about 2.5 h to make the product ready to use again.
