Soundpeats TrueFree2 wireless earphones

Do you value great sound quality and comfort? The Soundpeats TrueFree2 wireless earphones are perfect for you! The 6mm drivers deliver crystal clear sound and the Bluetooth 5.0 connectivity lets you enjoy reliable signal transmission. The durable batteries and included charging case provide up to 20 hours of battery life. The earphones are also incredibly comfortable and IPX7 waterproof.

Stunning sound

Discover your favorite songs in even better quality. With 6-millimeter drivers, the earphones can deliver clear, detail-rich, Hi-Fi-level natural sound. This means that listening to music or podcasts will become even more enjoyable! The songs you love have never sounded better.

Bluetooth 5.0

Forget about delays, too weak signal and other connection problems. Bluetooth 5.0 provides fast and stable transmission, so you can listen to your favorite songs without interruption. Each earphone independently connects to the device, allowing you to conveniently use them in different configurations - left only, right only, or both at the same time. What's more, TrueFree2 will instantly connect to your phone when you take them out of the case.

Convenient operation

With Soundpeats, everything you need is always at your fingertips. The earphones feature dedicated buttons that provide easy access to several useful functions - so you don't have to reach for your phone every time! Just press to, for example, answer a call, pause the playback or even activate the voice assistant.

Comfortability

The earphones have an ergonomic shape and are equipped with specially designed eartips, so they fit perfectly in your ears and do not fall out, even if you move a lot. They are also extremely lightweight and comfortable. They're also IPX7 waterproof, so you can take them with you on your workout without worry. And you don't have to take them out of your ears when it rains.

Even 20 hours of music

Enjoy your favorite songs for as long as you want. The earphones (with charging case) last up to 20 hours. In standby mode the devices will last up to 120 hours! This way, you can rest assured that they won't refuse to serve you when you least expect it. To charge the case, connect it to a power source using the included USB-C cable.
