Ref: 6972860179162

Remote control Telesin for GoPro Hero 11 / 10 / 9 / 8 / MAX (GP-RMT-T10)

Telesin T10 Remote control for GoPro Hero 12 / 11 / 10 / 9 / 8 / MAX

The remote control allows you to remotely control GoPro HERO 12 / 11 / 10 / 9 / 8 / MAX cameras. Provides convenient access to all camera functions, making it easy to record effective movies and create original shots. Its range is as much as 80 m, so you do not speak to be afraid of signal interference. The operation of the device is extremely simple and the connection takes only a few seconds. What's more, the remote control allows you to operate up to five cameras at the same time. The included wristband allows you to wear it like a watch.

Convenient operation

The remote control will be perfect for mountain expeditions or cycling. With its help, you can easily take a group photo, record a video, turn on Timelapse or change camera settings. Placed on the wrist, it ensures maximum comfort and safety during active rest.

Long runtime

The T10 remote control can work up to 10 hours on a single charge. The long working time is influenced by the applied Bluetooth technology with low power consumption. Convenient magnetic charging is possible thanks to the included cable, and the practical screen displays information about the charge level of both the remote control and the camera.

Wear it like a watch

The set includes a practical wristband, which is made of skin-friendly materials and allows you to mount the remote control on your hand. Thanks to this, you can wear it like a watch and use it even in extreme situations. The adjustable length guarantees that the band will fit every user.

Practical solutions

The remote control is equipped with a small screen that provides information about the charge level of the remote control and camera as well as recording time. The T10 is compatible with GoPro HERO 12 / 11 / 10 / 9 / 8 / MAX cameras, what's more, you can operate them at the same time, because the T10 allows you to control up to 5 cameras at a time. Large buttons make the use of the remote control simple and pleasant.
