

Sonic toothbrush with head set and case FairyWill FW-507 Plu

Ref: 6973734202672

Sonic toothbrush with head set and case FairyWill FW-507 Plus (pink)

FairyWill FW507 sonic toothbrush

Dazzle everyone with a dazzling smile. The ADA-approved FairyWill FW507 sonic toothbrush generates vibrations at up to 40,000 per minute and offers 5 modes to choose from. It is also equipped with a smart 2-minute timer. Its long-lasting battery provides up to 30 days of use on a single charge. The set also includes 8 replaceable tips and a practical case that allows you to transport the toothbrush conveniently and safely.

Even more thorough cleaning

High vibration frequency gives the FW507 sonic toothbrush a thorough cleaning in as little as 2 minutes! It also features a smart timer that gives you a brief pause every 30 seconds to remind you to change the area of your mouth you're brushing. After 2 minutes, the toothbrush will turn off automatically.

5 operating modes to choose from

Customize the action of the toothbrush to suit your needs. The device offers 5 modes to choose from. Clean is perfect for everyday use, while White will get rid of the most stubborn plaque and stains. Massage mode massages your gums and Polish mode polishes your front teeth. A gentle Sensitive mode is also available.

Waterproof

Use the toothbrush in the shower or bath without worry. It's IPX7 waterproof. You can also safely wash it under running water after each use, extending its life and reducing the risk of bacteria proliferation.

Interchangeable tips included

The set includes 8 interchangeable toothbrush tips. You can distribute them among your family members or keep them for yourself as a spare. You don't have to remember to replace them either! After some time, the colored bristles of the tip will start to fade, which means you should throw it away and install a new one.

Long runtime

This toothbrush is equipped with a long-lasting battery that allows it to serve you perfectly for up to 30 days on a single charge. It takes about 4 hours to recharge it. The device supports a voltage range of 110-240V, which means that you can easily connect it not only to a regular mains charger, but also to a powerbank or laptop, for example.
