CPU active cooling Darkflash Darkair Pro ARGB (heatsink + fan 120x120)

Ref: 6926170082339

Active cooling for the processor Darkflash Darkair Pro ARGB (heatsink + fan 120x120)

Provide your processor with optimal working conditions. Darkflash Darkair Pro active cooling guarantees efficient heat dissipation and optimizes this process in real time. It is equipped with 4 heat pipes and a copper base. It is also distinguished by dynamic ARGB backlighting, which will allow you to give your hardware configuration a modern touch.

Efficient cooling

Freely play dynamic games and use demanding programs. With Darkflash, you don't have to worry about your computer overheating! The copper cooling base fits perfectly to the processor, providing great thermal conductivity. In addition, 4 heat pipes are responsible for even, efficient heat dissipation. The device also uses a high-quality fan, whose operation is optimized by the PWM function.

Modern design

Build yourself a computer that not only meets every challenge, but also looks great. Darkair Pro cooling is equipped with dynamic ARGB backlighting, so it will perfectly complement, for example, a transparent case. Now you can easily achieve stunning visual effects! What's more, the product is compatible with Intel and AMD components, and its installation will not cause you any problems.

In the box

Active cooling for the processor
Intel & AMD mounting kit
Thermal conductive paste
Mounting screws
User manual
Brand
Darkflash
Model
Darkair Pro
Color
Black
Cooling type
Active
Number of fans
1
Speed
800-1600RPM
Maximum noise level
29dBA
Airflow
68CFM
Bearing type
Hydraulic Bearing
Illumination
ARGB
Number of heat pipes
4
Compatibility
Intel: 115x / 1366 / 17xx;AMD: AM4 / AM3(+) / AM2(+);
Fan size
120 x 120 x 25mm
Dimensions
128 x 155 x 50mm
Weight
850g
TDP
160 W
