

## Gaming Mouse Motospeed V60 5000 DPI (white)

Gaming Mouse Motospeed V60 5000 DPI (white)

Ref: 6953460596986

### Motospeed V60 Gaming Mouse

Looking for a gaming mouse that gives you the edge right from the start? The Motospeed V60 offers 8 DPI levels (up to 5000) and very low latency. What's more, it is equipped with up to 7 buttons, and dynamic RGB lighting gives it a modern, gaming character.

### Designed for gamers

The device has been equipped with a powerful optical sensor PMW3325, thanks to which it provides very low latency. It is also responsible for a maximum speed of 100 IPS and acceleration of 20 g. 7 buttons of the mouse will allow you to quickly access the most important commands in the game of your choice. Their lifespan reaches up to 20 million clicks. Moreover, you can adjust its DPI level by selecting one of 8 levels (500 / 800 / 1000 / 1500 / 2000 / 3000 / 4000 / 5000).

### Well thought-out design

The ergonomic design of the device guarantees a firm grip in every situation. You'll have even more control over what's happening on the screen. What's more, the mouse has a special, abrasion-resistant Teflon coating. That prevents it from slipping at key moments to optimize your reaction time.

### Dynamic backlighting

The Motospeed V60 opts for a combination of modern style and high functionality. It features dynamic RGB backlighting, which gives it a modern gaming feel. Complete your workstation with a practical mouse that catches the eye! Choose from 4 illumination modes and enjoy the combination of performance and visual appeal.
