Electric Screwdriver Set Hoto QWLSD010, 25 in 1

Ref: 6974370800062

Electric Screwdriver Set Hoto QWLSD010, 25 in 1

The HOTO brand is part of the Xiaomi ecosystem.

Electric Screwdriver Set Hoto QWLSD010 25 in 1

Fast and convenient screwdriving at the push of a button? It is possible with the HOTO brand. The electric precision screwdriver has a maximum speed of about 170 rpm and the powerful battery pack allows you to drive up to 500 screws on a single charge. In the set you will find 25 bits made of S2 steel, which will prove themselves in various scenarios. The case with built-in magnetizer makes it easy to transport and keeps your tools organized.

Excellent quality bits

In addition to the screwdriver, in the set you will find 25 different bits from the 10 most popular types. They are made of solid S2 steel, have a hardness of up to 60 HRC and will serve you for a long time. The screwdriver has a lot of applications, because the set includes flat, Phillips, triangular, Y-shaped, and Pozidriv bits. They make it possible to repair, among other things, digital cameras, smartphones, small toys or game pads.

Practical magnets

The screwdriver's tip has been equipped with a magnet, which makes it easier to change and install bits. What's more, the magnetic case

makes sure that the items placed in it stay in position and you don't have to worry about losing them. The case also has a built-in magnetizer so that you can magnetize selected bits and screwdrivers and thus make your work even easier.

Easy handling and long service life
The screwdriver's two buttons ensure convenient operation. One of them is used for screwdriving while the other for removing screws. The speed of 170 rpm lets you enjoy fast and efficient work, and the durable battery pack lets you drive up to 500 screws on a single charge. Use the built-in USB-C port to renew energy.

Tailored to the user's needs
With its low weight of around 60 g and non-slip surface, the screwdriver lies perfectly in your hand and provides a firm grip. The included carrying case is made of durable materials such as aluminum alloy, PC and ABS and has a spring-loaded hinge that makes it easy to open and close. The case opens at an angle of up to 115°, making it extremely convenient to take tools out and put them away.

Set includes:
Slotted bits: SL1.5, SL2.0;
Phillips bits: PH000, PH00, PH0, PH1, PH2
Hexagon bits: H0.7, H0.9, H1.5, H2.0
Torx: T2, T3, T4
Security Torx: T5H, T6H, T8H, T9H, T10H
Pentalobe: P2, P5
Pozidriv: W1.5
Y-shaped bits: Y0.6
Tri-Wing: TW1
Triangular bits: 2.3
