Electric Tire Inflator HOTO QWCQB001, 2500mAh (black)

Ref: 6974370800024

The HOTO brand is part of the Xiaomi ecosystem.

Electric Tire Inflator Hoto QWCQB001

Equip yourself with the handy HOTO QWCQB001 mini car compressor, which allows you to inflate a car tire, bicycle tire or ball, as well as measure the pressure with an accuracy of 0.1 bar. It is equipped with a 2500 mAh battery and a built-in flashlight, and thanks to its lightweight design you can easily take it anywhere. The kit includes 4 different nozzles and a carrying case.

Powerful work

The impressive performance of the mini compressor is due to its high pressure of 150 psi and large 19mm valve. The applied solutions make it take only about 8.5 minutes to inflate a car tire, and you can prepare for any eventuality. The device also allows you to measure the pressure with an accuracy of 0.1 bar and automatically stops working when the optimum value is reached.

5 operation modes

The HOTO QWCQB001 mini car compressor offers as many as 5 modes of operation, so it will find use in many different situations. At

your disposal are modes such as Ball (4-16 psi), Bike (30-65 psi), Motorbike (1.8-3 bar), Car (1.8-3.5 bar) and Custom (3-150 psi). So you can easily inflate a ball or a tire on your bike. Moreover, the device displays pressure values in 2 units (bar or psi).

Powerful battery

The 2,500 mAh battery ensures cordless operation and frees you from cables. Fully charged, it can inflate a car tire about 2.8 times, a mountain bike tire about 9 times, and a soccer ball about 37 times. Convenient renewal of energy is possible via the USB-C cable included in the kit.

Well designed

Thanks to the use of a special air duct and fans, the compressor does not get hot and has effective heat dissipation. It also has a built-in LED flashlight that will illuminate the area after dark. The lightweight construction and compact form are also worth mentioning - the device will fit in your backpack and will serve you anywhere.

Accessories in the set

In the box, apart from the compressor, you will find a case for easy transport and storage, as well as 4 nozzles thanks to which you can use the device in various situations. The Schrader valve will allow you to pump up motorcycle and car tires, and the Presta valve will allow you to pump up bicycle tires. A needle for inflating balls and an adapter for inflating swimming toys will also come in handy.

Included

Mini car compressor

Schrader valve with hose

Presta valve

Inflation needle

Adapter

Charging cable (USB-C)

Carrying case

Manufacturer

HOTO

Name

Portable Electric Tire Inflator

Model

QWCQB001

Pressure range

0.2-10.3 bar / 3-150 psi

Charging temperature

0°C - 45°C

Discharge (operating) temperature

-10°C - 45°C

Storage temperature

-10°C - 45°C

Hose diameter

200 mm (including adapter, without thread)

Battery capacity

2500 mAh

Volume level
less than 80 dB (at a distance of 1 m)
Input voltage
5 V - 2 A
Charging port
USB-C
Charging time
approx. 3,5 h
Sensor accuracy
±2 psi
Standard
Q31 / 0107000203C001-2021
Dimensions
89 x 44 x 123 mm
