

## Wireless numeric keypad / calculator MOFII SK-657AG 2.4G (Pi)

Ref: 6950125748469

Wireless numeric keypad / calculator MOFII SK-657AG 2.4G (Pink)

MOFII SK-657AG 2.4G wireless numeric keypad / calculator (pink)

The MOFII SK-657AG wireless numeric keypad will complement the functionality of your basic computer keyboard. The device can also act as a handy calculator. The keyboard connects to your computer wirelessly - in the 2.4G band. It has a built-in LCD display and is powered by a single AAA battery.

20 membrane keys

The numeric keypad offers 20 keys with membrane switches. They provide comfortable, effortless operation with a lifespan of up to 8 million clicks. The SK-657AG can complement a basic keyboard or serve as a handy calculator.

Convenience of wireless solutions

The device connects to a computer in the 2.4G band - via the included USB receiver. This ensures constant, stable transmission and low response time. What's more, the device synchronizes its operation with the main keyboard. Bet on wireless solutions and feel real convenience - without sacrificing functionality!

Thoughtful design

The keyboard features an LCD display that offers a 10-character display. The compact and handy size of the device allows you to take it

with you virtually anywhere. The keyboard is compatible with Windows XP, Vista, 7, 8 and 10. It also supports the Plug & Play system, which means it can start working as soon as it is plugged in - without installing additional software.
