

**Powerbanka Baseus Blade HD 20000mAh, 2xUSB, 2xUSB-C + cableU**

Ref: 6932172628031

Powerbank Baseus Blade 20000mAh, 100W.

Powerbank Baseus Blade 20000mAh, 100W.

The modern PowerBank is equipped with a 20000mAh battery. It features high charging power (100W) and has 4 ports - 2 USB-A ports and 2 USB-C ports. On its body there is a display that shows the level of remaining charge. The device is very light and its thickness is less than 20 mm, so it will be perfect for traveling.

**Lightweight design**

You can take it with you anywhere! The device weighs just 490 g - thanks to its ABS and PC finish. In addition, it is thinner than a standard laptop (18mm). It features a minimalist design and has a soft texture and comfortable grip. It has a hidden button with a length of 0.6 cm, plus it is stable and non-slip.

**20,000mAh capacity**

Charge your phone repeatedly with its 20000mAh capacity! The device will work well both on the go and also in case of a prolonged power outage. You will charge the battery quite quickly with the Type-C port. Save time and energy! The MacBook Pro 13 will charge up to 39% in just 30 minutes. With maximum power consumption (65W), our device will be fully charged in 90 minutes.

**Precise and efficient time management**

On the front of the case you'll find a built-in display that shows in real time: the charge level in percent and the remaining charging time. You can read from it the time it takes to charge the powerbank and the remaining operating time.

#### Versatility

Charge up to 4 devices at the same time and share the powerbank with family and friends. The product will allow you to charge, not only smartphones, but also tablets, laptops or speakers. It works with most popular USB-A/USB-C powered devices. BPSII technology supports fast charging, and the control chipset matches the current to the device, protecting it from damage. What's more, it has multiple protections - against overcharging, over-discharge, over-voltage, overheating or short circuit.

#### Safety of use

The device is durable - it is made of durable and wear-resistant materials. The powerbank has won numerous certifications and has national safety and quality standards. What's more, the NTC temperature sensor intelligently monitors the temperature of the device. Take it with you on your trip! The powerbank meets international safety standards, so you can even have it on board an airplane.
