

Wireless keyboard + mouse set MOFII Honey 2.4G (blue)

Ref: 6950125747653

Wireless keyboard + mouse set MOFII Honey 2.4G (blue)

MOFII Honey wireless keyboard + mouse set

Do you like devices that surprise you with their original design? Or maybe you are looking for a mouse and keyboard for your child? MOFII Honey set will be an excellent choice! You will find a compact keyboard with 83 keys and a mouse that allows you to adjust the resolution in the range of 800-1600DPI. Both devices connect to the computer wirelessly - in the 2.4G band. They are also extremely convenient to use.

Mouse with adjustable resolution

The included mouse fits well in the hand and works well in various applications. It is equipped with 4 buttons and allows you to adjust the resolution in the range of 800 / 1200 / 1600DPI. This makes it easy to adjust it to your expectations. It is ideal for work and homework. It will also work well for casual Internet use or even gaming.

Practical keyboard

The keyboard you will find in the set will also be ideal for small desks. It is equipped with 83 keys, so it is extremely compact and does not take up too much space. It is also distinguished by its ergonomic design - it provides high comfort of use. The shape and arrangement of the keys resemble a honeycomb, which gives the device a stylish, original character. The life of the keys of the keyboard reaches 8 million presses - it will serve you well for a long time.

Function keys

Want to make it even easier for you or your child to work with the computer? The included keyboard will allow you to do so! The product has been equipped with practical function keys that allow, for example, convenient operation of the media player, volume control, as well as use of the Internet browser, search engine or e-mail box.

Wireless connection

Free yourself from cables and make it easier for your child to keep his desk organized. The devices that are part of the set work wirelessly. They connect to the computer in the 2.4G band, which guarantees reliable transmission over a distance of about 6-10m. They also stand out for their long operating time and offer 3 levels of power saving mode. For the keyboard, 2 AAA batteries are sufficient, and for the mouse, one AA battery. The devices are compatible with various versions of Windows.
