Seago Sonic Toothbrush SG-972K

The Seago SG-972K sonic toothbrush features a unique, stylish design and powerful performance. It generates vibrations at a frequency of up to 40,000 strokes per minute, allowing you to clean your teeth incredibly thoroughly. It lets you choose from 5 cleaning modes, and it lasts up to 30 days on a single charge. The device is also IPX7 waterproof and extremely comfortable to use. With Seago you will delight everyone with a beautiful, white smile!

5 brushing modes

Adjust the toothbrush to your expectations. SG-972K offers as many as 5 different brushing modes to choose from. Whitening helps whiten your teeth - so you can enjoy a snow-white smile. Clean effectively removes dirt, food debris, stains and plaque. Massage offers a gum massage, while Polish provides a polishing effect. Sensitive allows you to gently clean sensitive teeth.

Powerful work

Get rid of debris, plaque and food residue efficiently. The SG-972K is equipped with a powerful motor that delivers a vibration frequency of up to 40,000 strokes per minute. This means it can thoroughly and effectively clean even those hard-to-reach areas that ordinary toothbrushes can't reach. With Seago, you take optimum care of your dental health and hygiene!

Refined down to the last detail

The brush impresses not only with its functionality, but also with its stylish design. Elegant, black color will surely appeal to many users. The device is also very pleasant to the touch and feels great in the hand, as it is equipped with an anti-slip handle. The device is also IPX7 water-resistant, so you can use it in the shower or bathtub without any problems.

Interchangeable tips

What else makes the Seago SG-972K so effective? Specially designed tips with nylon bristles effectively eliminate dirt without damaging the enamel. This makes them ideal for people with sensitive teeth. They are also antibacterial. They are perfect for everyday use. In the set you will also find 2 additional, spare tips.

Long working time

The device has a built-in rechargeable battery that lasts for about 30 days fully charged. Convenient charging of the brush is made possible by the included USB cable. Just plug it into the charger and it will be fully charged in about 4 hours. You don't have to worry about forgetting to charge it. When the battery is about to run out, a special indicator will let you know.

Intelligent timer

With the SG-972K you can clean your teeth thoroughly in just 2 minutes. But you don't have to remember or control the cleaning time. The device offers a special, intelligent timer that takes care of it for you! Every 30 seconds, a brief pause in the vibration will remind you to change the area you are brushing. After 2 minutes of brushing, the SG-972K will automatically stop. You don't have to worry about a thing!
