Seago Sonic Toothbrush SG-540

With Seago you can take optimum care of your oral hygiene. The SG-540 sonic toothbrush generates vibrations at a frequency of up to 42,000 strokes per minute and offers 5 modes to choose from. It allows you to clean your teeth and tongue at the same time. When fully charged, it can last you for up to 4 weeks and it is also IPX7 waterproof. It also has a smart timer so you don't have to keep track of your brushing time. Take care of your teeth and dazzle with a beautiful smile!

Impressive performance

What makes the SG-540 brush work so effectively? It has an improved motor that delivers sonic vibrations at up to 42,000 strokes per minute. As a result, it effectively cleans even those hard-to-reach areas of the mouth that ordinary toothbrushes cannot reach. The product works very quietly at the same time - so you won't have to worry about any disturbing noise.

Choose from 5 modes

Now you can easily adjust the brushing action to suit your needs. The SG-540 lets you choose from 5 modes - see which one is right for you! Sensitive is for users with sensitive teeth. Clean effectively removes stains, debris and food, while Massage provides a gentle gum massage. Polish offers a polishing effect. White removes tartar and helps whiten teeth.

Specially designed tips

Seago helps you take care of your oral hygiene. The SG-540 toothbrush is equipped with a specially designed tip that not only has high-quality, rounded bristles of high density, but also small tongue cleaner tabs. Thanks to its well-thought-out design, it allows for thorough, effective, yet safe cleaning without the risk of damaging your enamel. The kit also includes an extra spare tip.

2 minute timer

The optimum brushing time is 2 minutes. But you don't have to remember or look at a timer or watch! The SG-540 takes care of everything for you. Thanks to the smart timer, every 30 seconds it will remind you to change the area you're brushing, taking a short pause in the vibration. After 2 minutes of cleaning, the device will automatically turn off.

Tailored to your needs

Use it in the bath or shower - the SG-540 is IPX7 waterproof. And you can safely wash it under running water to keep it in perfect condition for longer and prevent bacteria from multiplying. The device is also comfortable to use. It is extremely lightweight and its specially designed handle fits perfectly in your hand. What is more, the toothbrush is handy and compact - you can easily fit it in your suitcase and take it with you on vacation!

Long battery life - fast recharging

Enjoy the long runtime of your toothbrush. Thanks to its durable lithium battery the SG-540 can run for up to 4 weeks on a full charge. So you don't have to recharge too often. The device also supports fast charging. To charge it, simply connect it to a power source using a USB cable. After about 2 hours it will be fully operational again!
