Sonic toothbrush Seago XFU SG-2011 (black)

Ref: 6938320700123

SEAGO XFU SG-2011 sonic toothbrush (black)

Delight in a snow-white smile with the Seago XFU SG-2011. The sonic toothbrush operates at 40000 rpm and offers 5 modes. It is equipped with a smart timer that watches the brushing time for you. 2 AAA batteries are responsible for its power supply. In addition, the set includes 3 tips.

Thorough cleaning

The sonic toothbrush generates vibrations at a frequency of 40,000 rpm to effectively remove debris. In addition, the Dupont bristles are distinguished by their high density and have been rounded at the ends to thoroughly clean teeth while not damaging enamel and gums.

5 modes of operation

The SEAGO XFU SG-2011 offers 5 modes of operation to meet different user needs. To get rid of stains, choose White mode, and for daily cleaning, use Clean mode. Polish mode, on the other hand, will make your teeth whiter, while Massage will give your gums a gentle massage. Sensitive, on the other hand, will be suitable for sensitive teeth.

Smart timer

The sonic toothbrush will make sure you clean your teeth long enough. It's equipped with a smart timer that will remind you every 30

seconds to change the area you're brushing, and then turn off automatically after 2 minutes.

Thoughtful design

Operation of the toothbrush is simple and intuitive, so you won't have any problems. The power button will make it easy to turn the device on and off, and a second button will allow you to change the modes of the toothbrush. The SEAGO XFU SG-2011 is also IPX7 water resistant. In addition, it is powered by 2 AAA batteries, which provide about 90 days of use.
