

Electric Drill Deko Tools DKED10Z1

Electric Drill Deko Tools DKED10Z1

Ref: 6974491584391

Deko Tools DKED10Z1 Electric Drill

Equip yourself with a lightweight and portable drill with an excellent impact-to-weight ratio and get better performance. The equipment features a speed of 3000 RPM and has 2 operating modes that are adapted to the task at hand. Its input power is 400W, while the voltage rating is 220-240V~50/60Hz. The tool will work well for both professionals and beginners.

Ergonomic design

The tool has been designed to ensure maximum comfort of use. Anti-slip grip guarantees comfortable and safe grip. The 360-degree rotating auxiliary handle with textured grip is responsible for long and comfortable work. Using the rotation switches, you can change the direction of rotation of the device. Change the speed of the drill freely and adapt it to your needs!

Two operating modes

The electric drill offers 2 modes of operation - drilling mode and hammer drill mode. Increase the efficiency of your work with the variable speed trigger with reverse function. What's more, the integrated spring absorbs the impact vibration of the drill.
