

Gaming Mouse Havit MS961 RGB 1200-12000 DPI (white)

Ref: 6939119040413

Gaming Mouse Havit MS961 RGB 1200-12000 DPI (white)

Havit MS961 Gaming Mouse

Get yourself a gaming mouse that will give you an advantage during gameplay. The Havit MS961 offers 6 levels of adjustable resolution up to 12,000DPI. It is equipped with 6 buttons and supports macro programming. It also has a built-in advanced gaming chip PMW3327. The ergonomic shape provides comfort while the customizable backlighting in 16 million colors gives the mouse a unique character.

Ideal for gamers

The MS961 mouse is equipped with a professional gaming chip PMW3327, which not only provides incredible fluidity and precision, but also enables macro programming. It also lets you adjust the resolution in the range of 1200 / 2400 / 4800 / 6200 / 8000 / 12,000DPI - each value is indicated by a different backlight color. All this allows you to optimally adapt the mouse to your needs and gain an advantage over your opponents!

Ergonomic design

Get the comfort you desire-even during prolonged gameplay. The mouse has an ergonomic shape that fits comfortably in your hand, doesn't strain your wrists and allows you to play for hours without getting tired. What's more, the non-slip surface prevents the device from slipping out of your hand. With Havit you have total control over the movements of your character in the game!

Gaming backlighting

Do you like stylish, modern gaming gear? The MS961 mouse will also appeal to you! It features dynamic backlighting in 16 million colors. You can also customize its style with the dedicated software. There are up to 7 RGB lighting effects for you to choose from. Now you can easily express yourself and create a unique atmosphere in your gaming zone!
