

## Thermometer gun Deko Tools CWQ04

Thermometer gun Deko Tools CWQ04

Ref: 6974491585077

### Deko Tools Thermometer gun CWQ04

The Deko Tools CWQ04 pyrometer is perfect for both home and industry. It can measure the temperature of many different objects without contact and has a response time of only 0.5 seconds. It has a wide temperature range (from -50 °C to 600 °C) and high accuracy. It allows you to display the maximum value, and the D:S 12:1 optics are responsible for the precision. 2 AAA batteries are sufficient for power supply.

### Precise measurement in a short time

A response time of 0.5 s and high precision are the main advantages of this model. The CWQ04 enables temperature measurement from -50°C to 600°C with an accuracy of 1.5°C at temperatures above zero and 3°C at temperatures below zero. The built-in display allows you to conveniently read the values.

### At home and in industry

The Deko Tools CWQ04 pyrometer is distinguished by its wide temperature range, which increases its versatility. The device is ideal for use at home and in industry, where it can measure the temperature of, for example, computer casings, selected machine parts or foodstuffs. The emissivity of CWQ03 is 0.95 and is a constant value.

**Manufacturer**

Deko Tools

**Name**

Pyrometer Deko Tools CWQ04

**Model**

CWQ04

**Temperature range**

-50~600°C (-58~752°F)

**Accuracy**

≥0°C: ±1.5°C, &lt;0°C: ±3°C

**Spectral response**

8-14 um

**Resolution**

1% of reading or 1 °C

**Response time**

0,5 s

**D:S**

12:1

**Emissivity**

0.95, non-adjustable

**Working temperature**

0~50°C (32~122°F)

**Operating humidity**

10-90% RH non-condensing

**Storage temperature**

-20~60°C(-4~140°F), without battery

**Power supply**

2x AAA (not included)

Price:

**€ 12.00**
