Wireless projector BYINTEK K9 Multiscreen LCD 1920x1080p

Ref: 798394974860

### BYINTEK K9 Multiscreen Wireless Projector

The BYINTEK K9 Multiscreen Wireless Projector will allow you to create a home theater, as well as play your favorite games on the big screen. The projector provides excellent image quality with a resolution of up to 1080 p, and the RGB 3LED lamp is distinguished by a lifespan of 30,000 h. The device has HDMI, USB 2.0, AV ports, for convenient operation is responsible for the included remote control and practical knobs for trapezium and focus correction.

### Excellent image quality

The BYINTEK K9 Multiscreen Wireless Projector features a native resolution of 1280 x 720 p, with a maximum image resolution of up to 1080 p. Combined with LCD display technology and a contrast ratio of 1800:1, this ensures excellent image quality, rich detail and good color reproduction. The brightness of the projector is 250 ANSI lumens, and the projection size is 43-150".

### Your favorite game on the big screen

The K9 Multiscreen allows you to connect wirelessly to a smartphone or tablet, which is a great option for all gamers. So you can launch the game of your choice on your smartphone and enjoy the image on the big screen. The projector is compatible with Miracast and Airplay, and allows screen mirroring.

#### Wide compatibility

The wireless projector from BYINTEK is distinguished by its wide compatibility, so it will work in many different situations. You can use HDMI, USB 2.0 or AV ports and connect the projector to, for example, a PS4 console, computer, DVD or U drive. It's perfect for showing your friends your vacation photos or watching the game on the big screen.

#### Even more possibilities

The projector is equipped with a trapezoidal correction function (+/-15 degrees), which will come in handy when the projector is not placed perfectly in relation to the screen. The ability to adjust focus is also a plus, and the included remote control is responsible for convenient operation.
