

Projector BYINTEK K20 Basic LCD

Projector BYINTEK K20 Basic LCD

BYINTEK K20 Basic projector

Wide compatibility, resolution of Full HD 1920x1080 p and easy operation are the main advantages of the BYINTEK K20 Basic projector. The device uses LCD display technology and provides high image quality, plus it has a 5W speaker and a number of useful ports. The K20 Basic also offers a keystone correction function, and the brightness of 500 ANSI lumens guarantees a clear image and a successful movie session.

Enjoy your favorite movies on the big screen

The native resolution of the K10 Basic projector is Full HD 1920x1080 p. Sharp, clear images and good color reproduction is due to the contrast ratio of 15000:1. The projection size is also an asset - it is 30 - 300" and provides comfortable viewing on a large screen.

Additional capabilities

The BYINTEK K20 Basic projector is equipped with a trapezoidal correction function, so you can correct errors made when setting up the device. An electronic zoom is also at your disposal, as well as a number of ports, such as HDMI, AV, Mini Jack 3.5 mm, SD, USB 2.0 and VGA.
