

Projector BYINTEK U50 Pro DLP 3D 4K Android OS

Projector BYINTEK U50 Pro DLP 3D 4K Android OS

Ref: 798394974945

BYINTEK U50 Pro projector

Opt for the BYINTEK U50 Pro professional projector for the ultimate in entertainment. The projector displays images in up to 4K and has a brightness of 500 ANSI lumens. The device is compatible with Android 9.0, and it is also equipped with two 3W speakers that provide high quality sound. A practical keyboard and remote control ensure maximum user comfort.

Home cinema

The BYINTEK U50 Pro projector will allow you to create a home theater for your kids or watch your favorite movie on the big screen. A 3LED RGB lamp with a life span of 50000 h is responsible for the high image quality. The contrast ratio of 15000:1 and electronic focus adjustment are also an asset. The device's native resolution is Full HD 1920x1080 p, but with the help of a cable the projector displays in up to 4K.

Perfect for gamers

The projector will work well not only among cinema goers, but also provide excellent entertainment for gaming fans. The device is compatible with Android 9.0, so it offers wifi-display functionality and allows you to project your favorite game on the big screen. You can also watch Netflix movies, check out YouTube videos and use many other apps.

Seamless connectivity

The U50 Pro is equipped with several ports that allow you to connect the projector to a wide variety of devices. Using HDMI, USB 3.0 or USB 2.0 ports, you can connect the projector to a PS4 console, U drive, gamepad, mouse, DVD, smartphone, laptop, computer or speakers, among others.

Convenient operation

The projector has a practical keypad, with which you can quickly change the settings for the projector's operation. There is also a remote control at your disposal - thanks to it you don't even have to get up from the couch to manage the projector's operation. Also noteworthy are two 3W speakers, which will allow you to enjoy good audio quality.
