Projector BYINTEK K18 Smart LCD 4K Android OS

BYINTEK K18 Smart projector

4K quality, Android 9.0 compatibility, trapezoidal correction and wide compatibility are the main advantages of the BYINTEK K18 Smart projector. The device provides excellent image quality, and is also lightweight and handy, so it won't cause any problems during transport. The K18 Smart also offers electronic zoom and electronic focus, and has a 3W Hi-Fi speaker.

High image quality

The BYINTEK K18 Smart projector uses LCD display technology, and the crisp image and good color reproduction is thanks to a brightness of 400 ANSI lumens and a contrast ratio of 10000:1. The device's native resolution is Full HD 1920x1080, while you can get up to 4K quality with a cable.

Perfect for gamers

The K18 Smart is compatible with Android 9.0, which is a great option for gaming fans. After all, you can display your favorite game on the big screen and take your entertainment to an even higher level. The possibilities don't end there! Android 9.0 allows you to watch Netflix videos, browse YouTube and use many other popular apps.

Wide compatibility

The projector is equipped with HDMI, AV, Mini Jack 3.5 mm ports, as well as two USB 2.0 ports, so you can easily connect the K18 Smart to the devices of your choice and ensure an excellent screening or gaming session. The projector will work well with a PS4 console, U drive, laptop, PC, DVD or speakers, among others.

High comfort of use

Thoughtful design of the projector ensures comfortable operation. A large knob on the side allows you to adjust the focus, while a small one on the back allows you to correct the trapezium. There is also a functional keyboard at your disposal, thanks to which you can quickly and conveniently manage the operation of the device.
