

Projector BYINTEK K18 Basic LCD 4K

Projector BYINTEK K18 Basic LCD 4K

Ref: 798394974969

BYINTEK K18 Basic projector

Are you looking for a handy projector that will provide you with a high quality image in many different places? The BYINTEK K18 Basic will meet your expectations. It displays images in up to 4K, and provides a brightness of 400 ANSI lumens. Wide compatibility, trapezoidal correction and electronic focus adjustment are additional advantages of the model.

Enjoy the perfect image

The projector's native resolution is Full HD 1920 x 1080 p, but with the use of a cable the device displays images in quality as high as 4K. The projector uses LCD display technology, and a contrast ratio of 10000:1 and brightness of 400 ANSI lumens, among others, are responsible for a sharp and clear image. The maximum projection area is 200", so you'll have a great entertainment experience.

Wide compatibility

The projector is equipped with HDMI, AV, Mini Jack 3.5 mm ports, as well as two USB 2.0 ports, so you can easily connect the K18 Basic to the devices of your choice and ensure an excellent screening or gaming session. The projector will work well with a PS4 console, U drive, laptop, PC, DVD or speakers, among others.

Convenient operation

A large knob on the side of the projector allows you to adjust the focus, while a small one on the back allows you to correct the trapezium. There is also a functional keyboard at your disposal, thanks to which you can quickly and conveniently manage the operation of the device. Easy operation will translate into high comfort when organizing a home theater or broadcasting a match.
